

# PRESS RELEASE

## **IGE+XAO launches SEE Electrical 3D Panel, an innovative and open software package dedicated to electrical panel design.**

Hannover, Germany, April 14 2015

At the occasion of the Hannover Fair, the IGE+XAO Group announces the launch of SEE Electrical 3D Panel.

Created from IGE+XAO « SEE 3D Electrical » technology which was announced last year, this package simplifies component placement on DIN rails, the creation of drill templates and CNC programming. It provides as well collision detection and flags up mounting inconsistencies.

Designed to automatically take into account manufacturing constraints as early as the electrical panel design stage, SEE Electrical 3D Panel also offers advanced routing functionalities in order to optimize wire lengths, wire pathways as well as the wire way filling-rate.

This intuitive and easy-to-set-up package connects not only with the IGE+XAO Group leading packages (SEE Electrical and SEE Electrical Expert), but also with third party 3D packages.

Alain Di Crescenzo, Chairman and CEO of the IGE+XAO Group explains - "With this new, independent and open to third party 3D package, automation engineers and panel builders benefit from a dedicated and powerful tool for modelling, designing and manufacturing any kind of system. SEE Electrical 3D Panel is all the power and 3D essentials in the hands of electrical professionals".

### **ABOUT THE IGE+XAO GROUP**

For over 28 years, the IGE+XAO Group has been a software publisher designing, producing, selling and supporting a range of Computer Aided Design (CAD), Product Lifecycle Management (PLM) and Simulation software dedicated to Electrical Engineering. These software products have been designed to help manufacturers in the design and maintenance of the electrical part of any type of installation. This type of CAD/PLM/Simulation is called "Electrical CAD/PLM/Simulation". IGE+XAO has built a range of Electrical CAD/PLM/Simulation software designed for all the manufacturers. IGE+XAO employs 388 people around the world on 30 sites and in 19 countries, and has 82,375 licences. IGE+XAO is a reference in its field. For more information: <http://www.ige-xao.com>

### **IGE+XAO GROUP CONTACTS**
