

## PRESS RELEASE

**The IGE+XAO Group launches SEE Electrical Expert V4, a new version offering performance, openness and collaborative work.**

**Toulouse, February, 14th, 2012 – The IGE+XAO Group** announces the launching of SEE Electrical Expert V4, a new version which relies on three key features: performance, openness and collaborative work.

First performance, since the version 4 includes a new electrical data explorer, significant processing time improvements and a new module "Open Data" which optimizes modification cycles.

Second, openness with a version 4 which offers:

- new communication interfaces with PLM/Mechanical CAD, PDM and other professional software packages (labeling, PLC programming, archiving, etc),
- a new module for panel design (named 3D Panel) based on SolidWorks®,
- and an international version 100% "Unicode".

In addition, SEE Electrical Expert V4 proposes a brand new module dedicated to collaborative work "Collaborative Engineering".

"This new version is an important step for our leading package SEE Electrical Expert. It represents an investment of over 50 man years of Research & Development. We developed this version so that it brings more efficiency, more performance and more flexibility to our customers" declared Alain Di Crescenzo, Chairman and CEO of the IGE+XAO Group.
