

Toulouse, march 14th, 2008. The IGE+XAO Group announces:

Turnover of the 2nd quarter 2007/2008 (In IFRS norms)

## Significant activity growth in the 2nd quarter

in euros	Financial year		
	2007/2008	2006/2007	Variation
Turnover of 1st quarter (from 1 <sup>st</sup> August to 31 October)	4 539 436	4 309 447	5.3%
Turnover of 2nd quarter (from 1 <sup>st</sup> November to 31 January)	5 925 975	5 504 519	7,7%
Turnover of the 1st half year	10 465 411	9 813 966	6,6%

IGE+XAO shows a growth in turnover of 7.7% compared with 4.9% in 2006/2007 for the second quarter 2007/2008. This significant progression saw the Group cross the 10 million euros threshold in the first half year of 2007/2008 with a turnover of 10 465 411 euros compared with 9 813 966 euros a year earlier. This positive evolution comes with a strong technical, commercial and financial dynamism

The period was characterised by Product Lifecycle Management solutions (PLM) for the electrical facilities dedicated to aeronautics and space, which have represented almost 50% of the R&D resources in the last five years. After signing a first commercial contract with Eurocopter in 2005, IGE+XAO signed another contract for around 800 000 euros with another major actor in the aeronautics sector. These efforts should lead to new contracts at medium term.

In parallel, the Group sold its 11% shares in the Anyware Technologies Company for an amount of 1.1 million euros in January 2008. IGE+XAO, who had acquired these shares for a total amount of 392 000 euros, has thus accompanied all the shareholders and leaders of the Anyware Technologies Company in this operation.

The high level of activity confirms the Group's objectives which simultaneously aim for the increase of the turnover and a high level of profitability.

### ABOUT THE IGE+XAO GROUP:
