

# SEE Electrical 3D Shop Floor

A mounting and wiring assistant dedicated to shop floors

## Features

- Touch-screen compatible;
- Supports barcode readers;
- Provides a clear view on devices which need to be mounted and their position;
- Helps follow the work completed and ensures consistency in duplicate panels;
- Selected devices are highlighted and the user can validate the mounting with a finger touch;
- Wire list provides clear information on involved devices and route to take;
- Filters are available to organise work according to preferences (filter by device, color, wire size, etc.);
- Select wires in the list by using the mouse, your finger or even by scanning the barcodes engraved on wires;
- Explore designs using touch or mouse for a clear view on the work to be carried out;
- Wire route is clearly displayed;
- Mounting validation helps follow team work and ensures time saving.
